Leading SAFe®

Applying a Lean-Agile Mindset with SAFe

Develop a skillset that's in demand worldwide—and empower enterprises to succeed in a disruptive marketplace—by becoming a SAFe® Agilist (SA).

During this two-day course, you'll learn the principles and practices of the Scaled Agile Framework® (SAFe®), how to execute and release value through Agile Release Trains, and what it means to lead a Lean-Agile transformation at enterprise scale.

You will gain an understanding of the Lean-Agile Mindset and why it's so effective in today's adapt-or-die marketplace. You'll also get practical advice on supporting Agile teams and programs, empowering a Lean Portfolio, building a Continuous Delivery Pipeline and DevOps culture, and coordinating large solutions.

With SAFe® 4 Agilist Certification

Leading SAFe®

With SAFe® 4 Agilist Certification
Based on version 4.5 of SAFe

"[We] had been to a Leading SAFe training, and once you see that big picture, your eyes start lighting up. It's a powerful story how the Program layer aligns with Scrum teams. We knew that SAFe was something that would work for us at Fitbit."

DAMIAN BROWN Sr. Director of Program Management Office, Fitbit

Who will benefit?

The following individuals will benefit from this course:

- Executives and Leaders, Managers, Directors, CIOs, and VPs
- Development, QA, and Infrastructure Management
- Program and Project Managers
- Product and Product Line Management
- Portfolio Managers, PMO, and Process Leads
- Enterprise, System, and Solution Architects

What you'll learn

To perform the role of a SAFe® Agilist, you should be able to:

- Apply SAFe to scale Lean and Agile development in your enterprise
- Recognize and apply a Lean-Agile Mindset and principles
- Continuously explore, integrate, deploy, and release value
- Empower with a Lean Portfolio
- Coordinate the development of Large Solutions
- Enhance your Lean-Agile leadership skills
- Support a Lean-Agile transformation in your enterprise

Prerequisites

All are welcome to attend the course, regardless of experience. However, the following prerequisites are highly recommended for those who intend to take the SAFe 4 Agilist (SA) certification exam:

- 5+ years' experience in software development, testing, business analysis, product, or project management
- Experience in Scrum

What you get

Class registration includes:

- Attendee workbook
- Preparation and eligibility to take the SAFe 4 Agilist exam
- One-year membership to the SAFe Community Platform
- Course certificate of completion

Attendees must attend both days of the course in order to be eligible for the exam.

Professional Development Units (PDUs) and Scrum Education Units (SEUs)

- Attendees may be eligible to apply for 15 PDUs toward their continuing education requirements with the Project Management Institute (PMI) for PMP, PgMP, and PMI-ACP certifications
- Attendees may be eligible to apply for SEUs under Category C, toward earning or renewing their CSP through Scrum Alliance

Annual renewal

Those attendees who pass the exam will receive Scaled Agile membership for one year, access to the private member area, downloads, and invitations to special events. Certifications expire one year from the date the certification is earned.

- Renewal fee: \$100

Nurturing Lean-Agile Mindsets

As a SAFe Agilist (SA), you will strategically guide the adoption, success, and ongoing improvement of Lean-Agile culture in your enterprise.

You will help define the organizational mission and vision, communicate strategic decisions and the need for change to all stakeholders and teams.

You will also motivate knowledge workers by helping them develop their skills and careers in a way that enhances their capabilities and increases their engagement and commitment to the mission and vision of the enterprise.
